HELP NEEDED ASAP:

Please help!!!! After two long years of being on a waiting list for an agility dog, we have been notified by the breeder that, at long last, our number has come up and ...**WE ARE HAVING A PUPPY!!!**

We must get rid of our children **IMMEDIATELY** because we just know how time consuming our new little puppy is going to be and it just wouldn't be fair to the children. Since our little puppy will be arriving on Monday we **MUST** place the children into rescue this weekend!

They are described as:

One male - His name is Tommy, Caucasian (English/Irish mix), light blonde hair, blue eyes. Four years old. Excellent disposition. He doesn't bite. Temperament tested. Does have problems with peeing directly in the toilet. Has had chicken Pox and is current on all shots. Tonsils have already been removed. Tommy eats everything, is very clean, house trained & gets along well with others. Does not run with scissors and with a little training he should be able to read soon.

One female - Her name is Lexie, Caucasian (English/Irish mix), strawberry blonde hair, green eyes quite freckled. Two years old. Can be surly at times. Non-biter, thumb sucker. Has been temperament tested but needs a little attitude adjusting occasionally. She is current on all shots, tonsils out, and is very healthy & can be affectionate. Gets along well with other little girls & little boys but does not like to share her toys and therefore would do best in a one child household. She is a very quick learner and is currently working on her house training-shouldn't take long at all.

We really do **LOVE** our children so much and want to do what's right for them; that is why we contacted a rescue group. But we simply can no longer keep them. Also, we are afraid that they may hurt our new puppy.

I hope you understand that ours is a **UNIQUE** situation and we have a real emergency here!!! They **MUST** be placed into your rescue by Sunday night at the latest or we will be forced to drop them off at the orphanage or along some dark, country road. Our priority now has to be our new puppy.

and the #1 Sign Your Veterinary Bill is Going to Require Financing:

"We can rebuild him. Make him stronger, faster...."

Three handsome male dogs are walking down the street when they see a beautiful, enticing, female Poodle. The three male dogs fall all over themselves in an effort to be the one to reach her first, but end up arriving in front of her at the same time. The males are speechless before her beauty, slobbering on themselves and hoping for just a glance from her in return. Aware of her charms and her obvious effect on the three suitors, she decides to be kind and tells them

“The first one who can use the words “liver” and “cheese” together in an imaginative, intelligent sentence can go out with me.”

The sturdy, muscular brown Lab speaks up quickly and says “I love liver and cheese.”

“Oh, how childish,” said the Poodle.

“That shows no imagination or intelligence whatsoever.”

She turned to the tall, shiny Golden Retriever and said “How well can you do?”

“Ummmm...I HATE liver and cheese,” blurts the Golden Retriever.

“My, my,” said the Poodle. “I guess it’s hopeless. That’s just as dumb as the Lab’s sentence.” She then turns to the last of the three dogs and says, “How about you, little guy?”

The last of the three, tiny in stature but big in fame and finesse, is the Taco Bell Chihuahua. He gives her a smile, a sly wink, turns to the Golden Retriever and the Lab and says

“Liver alone. Cheese mine.”

Business Taxes

Tax Information for Starting a Business

Obtaining a Provincial Sales Tax (PST) Licence/Vendor's Permit

The PST, also known as the Retail Sales Tax (RST), is a tax based on the retail price of most goods. Businesses that sell taxable goods, provide a taxable service, or charge admission to a place of amusement are responsible for collecting the tax and remitting it on a regular basis.

Merchandise and equipment used in a business, other than certain categories of production machinery and materials used in manufacturing, are taxable. Certain purchases, such as food products and children's clothing, are exempt from the tax. There is no fee for this permit. Further information on vendor permits and tax-exempt purchases may be obtained from the Ontario Ministry of Finance, Retail Sales Tax Office.

What does the PST apply to?

The PST rate in Ontario is 8% on most purchases of goods and on labour charges to install, repair and maintain taxable goods and equipment. Tax is also payable at the same rate on all prepared food products purchased from an eating establishment, where the total charge is more than \$4.00.

Business Number (BN)

The BN is a reference numbering system that replaces the multiple numbers businesses required to deal with government. The BN can encompass one or more of the following accounts: Goods and Services Tax, Payroll Deductions, Importer/Exporter account number and Corporate Income Tax. There is no fee for a Business Number.

Goods and Services Tax (GST) and Harmonized Sales Tax (HST)

Most goods and services sold or provided in Canada are taxable at the rate of 7% (GST) or 15% (HST).

The HST applies in the provinces of New Brunswick, Nova Scotia and Newfoundland. Certain items, such as sales of basic groceries and prescription drugs, are also taxable, but at a rate of 0%. These are referred to as zero-rated goods and services. A limited number of goods and services are exempt from the GST/HST.

Who must obtain a BN for the GST/HST?

Most individuals or businesses engaged in a commercial activity with annual sales and revenues of GST/HST-taxable goods or services totaling more than **\$30,000** must register and charge the GST/HST.

If your total annual sales are less than or equal to **\$30,000**, you are considered to be a small supplier and are not required to have a BN for the purpose of GST. If you do not obtain a BN, you do not charge GST/HST.
