Up Coming Events

PCC Rally-Obedience Trials being held May 31 and June 1 at Pine Point Arena, Etobicoke, ON. Premium List is now available at
www.beapudel.org/jump_up_dog_works

PCC 51st Annual Specialty Show & Obedience Trial
Sunday June 8, 2008, Arthur Area Community Centre, Premium List is now available

Obedience Correction Match and Rally Fun Match
Saturday evening June 7, 2008

Nomination for Officials for upcoming years must be received on or before the May Membership meeting. Check April meeting minutes for details.

NOTE FROM THE EDITOR

Debra Drake
ddrake@look.ca

March 2008

The first Edition got off to a notable start. I have discovered that using past Newsletters as templates is not a foolproof method. I also discovered that up to now many members, including myself, have apparently not been reading their Newsletters very carefully, as some of the mistakes have been repeated in the past.

My Assistant Editor, along with the help of other diligent and observant members will surely to keep me on the straight and narrow, grammatically speaking, anyway.

I believe the corrections to the spelling of the Executive and Director's names have now been made and should remain the same until our upcoming elections in September, 2008. During the numerous times I redid the page layout of the December Newsletter, I regrettably dropped some member's brags, and for this I am truly sorry. They are included in this issue. I will continue to work at ways to improve this Newsletter and to make it easier to download.

I have received a lot of positive support and feedback from members all across Canada regarding the first Newsletter. However, the most interesting emails were from a few non members who took the time to write their comments, ideas and suggestions after reading the Newsletter while regularly checking out The Poodle Club of Canada's web site for poodle information.

Again, please send in your ideas, articles and websites of interest, research, jokes (short ones I can actually publish) and most of all YOUR BRAGS.

Send in those brags so we can all recognize your and your poodle's accomplishments. Together we can produce a Newsletter that truly reflects our National Club's members, and most of all, their poodle interests.

I hope you will find this March Newsletter informative and entertaining.

Debra Drake

PCC Executive

The Poodle Club of Canada encompasses an enormous geographical area. Sheer distance poses a challenge for the members of the club to recognize, let alone become acquainted with one another. We may be familiar with a certain name, but know nothing about the person behind it. I would like to introduce you to the Executive Members of the PCC. These are the people who have taken on the task of keeping the club viable and successful. I hope these brief profiles will help you to get to know the people behind the names.

Vivienne Swarbreck

Dr. Joanne Reichertz DVM, President

Joanne has owned Poodles since 1964, and has been a member of PCC since about 1978. She lives in Belwood, just outside of Fergus/Elora just north of Guelph, Ontario where she breeds Black, Brown and occasionally Cream Standard and Miniature Poodles under her Permanently Registered prefix Bellefleet. She is a CKC Life Member, and has been breeding Poodles for 39 years. Joanne has had much success in her many years in the Conformation ring, along with her daughter, Alysia, who won the 2006 PCC National Specialty with her owner/handled Miniature Poodle Can.Am.Ch Sanvar Bellefleet Crispy Creme.

Donna Crispi, First Vice President

Donna shares her country home in Stouffville, Ontario, with her black Standard Poodles. She breeds under the prefix of IvyLane, and shows her dogs in conformation. Donna has just started training in obedience which she is enjoying thoroughly. She has owned Poodles for eight years and been a member of PCC for seven years. Donna is proud to announce "my girl "Katie" finished her Championship as a Jr. Puppy with 3 Puppy Groups and a BPIS, all owner handled."

David Pateman, Second Vice-President

David makes his home in Burford, Ontario. He has been a PCC member since 2002 and a poodle owner since 1991. Under the "Palman" prefix, he breeds white, cream and silver miniature poodles, and shows them in conformation and obedience.

David's comments:

"Betty and I are equal partners in the planning, breeding, whelping and training our poodles. Betty is the groomer, and I am her assistant. While Betty attends to the dogs all day, I have a full time job that permits us to support the kennel. I've been an Executive Member of the Brantford All-breed Club in many positions, including President, and have many responsibilities at show time. I'm in my second term on the PCC Executive plus working on several committees. One passion of mine is researching pedigrees and building a database of poodles that have obtained titles. To that end I have an extensive collection of Dogs in Canada, and a small collection of stud books. We have a wonderful group of poodle friends across North America, in Europe, Australia and Israel."

Carolyn Savage, Secretary

Carolyn, of Denali Poodles, lives in Hillsburgh, Ontario, where she breeds brown, black and white Standard Poodles and red, black, brown and white Miniatures. She has been involved in

Poodles for 13 years and has worked as Secretary for PCC since 2001. She shows her dogs in conformation.

Carolyn's comments:

I have had many Champions. In our 13 years of breeding we have also had the luck of showing Ch. Noteworthy Vanessa to #4 Miniature in Canada in only a handful of shows. This past year my husband and I imported a beautiful Miniature male from England. Ch Minarets Royal Ambassador obtained his Championship one week after he arrived in Canada, in a weekend and a day. This included Winners Dog at the Miniature Poodle Club of Ontario Specialty.

Pamela Vaughan Recording Secretary

Pamela breeds Black and Brown Standard Poodles under the prefix Rayah at her home in Chatsworth, Ontario. She was raised with Standard Poodles, and bought her first Standard 20 years ago, three weeks after marrying a farmer who had never had a dog, let alone a Poodle. Pamela joined PCC 15 years ago when it was the Poodle Advancement Association. She shows her dogs in Conformation and participates in Pet Therapy with them.

Pamela's Comments:

It is so hard to narrow it down to one brag but I must say when some breeders pulled their entries rather than lose to my 6 month old brown standard Cabryn Yankee Clipper ranks right up there. My Girl "Rayah's Uptown Girl" winning a booster from the classes against specials was also great but I think the number one brag is that all my dogs adore visiting the Nursing Homes as Pet Therapy Dogs. They so gentle even tho outside the home they can jump 6 feet straight in the air they are so excited to visit.

Peter Welsh, Treasurer

Peter, along with his wife, Diane, run Cantope Kennels in Udora, Ontario. There, they breed Standard Poodles, specializing in Silver, Brown and Red/Apricot. They show their dogs in Conformation, Rally-O and participated in the Herding Instinct Test hosted by PCC. Peter has a long history with poodles. His first was a Silver Toy in 1969, a Brown Mini, then a Black Bibelot Standard in 1973. His current lines started in 1995 with the acquisition of a Bonwill female. He has been a member of PCC since 2001.

Cantope has been consistently producing an amazing line of performance potential Silver Standard Poodles. One is a real hunting dog, while others are excelling in Obedience, Rally-O and Agility.

Colleen Craig, British Columbia Director

Colleen hails from Salmon Arm, BC, where she breeds an occasional litter of standard poodles under the prefix "Dogmatique". She has owned poodles for 7 years and her canine family now consists of one cream and three black poodles. Dante is 7, Be (pronounced Bay) is 6, and Gwyn and Raine are both 1 year old. Colleen shows her poodles in conformation, and trains in obedience, agility and rally-o.

Colleen's comments:

"I bring Raine to work with students in my classroom at the local middle school. He loves all the attention but particularly enjoys the snuggles as students read to him."

"Once afflicted with the multiple poodle syndrome, it's hard to imagine life without all the fun. We're just one big happy family."

Kathryn Albreht Alberta Director

Kathryn has lived in New Sarepta, SE of Edmonton, Alberta for the past 21 years. There she breeds Black, Blue and Cream Standard Poodles and Black Miniatures under the prefix Kandansk. She has owned Poodles for 14 years, and has been breeding for six years, having spent six years preparing to start her breeding program. Kathryn has belonged to PCC since 2000, and she competes in Conformation and enjoys, but regrets she does not have enough time for Obedience, Scent Hurdle and Agility!

Kathryn's comments:

I have the first Grand Champion Poodle in Canada. My Cairo – co owned and spoilt by Kim and Travis achieved the honor in July 2007. He is now being a house dog with Travis and Kim and getting ready for Agility. He practices on the treadmill daily getting prepared for the courses J He is a second generation BIS dog of my breeding and now I have his son to follow in his and his Grand dam's footsteps.

Cheryl Ingwersen, Ontario Director

I live in Tottenham, Ontario which is a small town North West of Toronto. I have 2 black Standard Poodles which I compete with in conformation and performance events but my main focus is performance. I am not a breeder.

I have owned Labrador and Golden Retrievers but have been actively involved with Standard Poodles for over 15 years and been a member of the Poodle Club of Canada for about the same length of time.

I have competed in numerous performance events with my Poodles including obedience, rally, field, agility, flyball and herding. My proudest moment recently was when my 3 year old bitch, JO Whirlwinds Island Rook, WC, CDX, HT achieved a CKC Herding title....I believe that she is the first Poodle in Canada to do that. I am passionate about doing activities with my Poodles that reflect their heritage as a working dog. I love Poodles for their beauty, intelligence, trainability and versatility....it appears that there is almost nothing that a clever Poodle can't learn to do! The Poodle's unique personality and sense of humor sets it apart from all other breeds and my dog's antics make me smile and laugh every day...believe me, the circus Poodle is alive and well in my house!

Ora Marcus, Quebec Director

Ora resides in the beautiful residential suburb of Beaconsfield, situated in the West Island of Montreal, Quebec. She has been breeding one or two litters of quality Standard Poodles a year since 1995, having started with dominant Black and then moving on to include Whites and Blues as well. Ora competes in Conformation with her dogs, but has sold puppies which have gone on to obtain titles in Obedience, Field and Agility. She has been a member of PCC since 1992.

Ora's comments:

I purchased my first show poodle (a female named Marney) from a U.S. breeder in February of 1992, finished her with 4 Best Puppy in Show wins including a Specialty Puppy in Show, and bred her 3 years later after fully genetically testing her. I took my time learning about the breed and studying various pedigrees before embarking on a breeding program as I wanted to start ethically, with a quality bitch, and with some knowledge backing me up. My foundation female Marney is still alive and healthy, and enjoys life today at 15.5 years old. She is our pride and joy, as are all our other dogs, young and old.

I presently own a beautiful white boy; Cole (Mutli Group Winning, placing and BPIS winner Ch. Allure Ormar No Regrets) who finished his championship undefeated as a puppy in Canada with a Group First, multiple group placements and Best Puppy In Show wins. His first outing in the U.S. was at the Poodle Club of America National Specialty where he won a large and highly competitive class under Ed Bivin and later on at the PCC Nationals he went Best Puppy in Variety. Jenn Carr, our wonderful handler showed him beautifully in Canada to all his wins and obtained a BOB over a multi BIS Special and a group placement when she took him out at 14 months old, his first time out as a Special. He was then sent to the U.S. to start his show career there with our U.S. handler Kathi Johnson and in 6 days of showing won 3 4 point majors, a BOB over a top ranked U.S. Special, a Group First, and WD and BOS at the Tampa Bay Poodle Club Specialty needing only 2 singles to finish his U.S. Title. Cole is a very special boy with superb and balanced structure, to die for movement and showmanship and wonderful happy temperament. He is our pride and joy and we are planning to Special him in Canada starting in 2009 with Westminster being his first 2009 show with Jenn. I also wish to thank Sara Szauerzopf for training Cole and for her pride in and love for him.

HUMOR

Wanda's dishwasher quit working so she called a repairman. Since she had to go to work the next day, she told the repairman, 'I'll leave the key under the mat. Fix the dishwasher, leave the bill on the counter, and I'll mail you a check.'

'Oh, by the way don't worry about my dog Spike. He won't bother you. But, whatever you do, do NOT, under ANY circumstances, talk to my parrot!' 'I REPEAT; DO NOT TALK TO MY PARROT!'

When the repairman arrived at Wanda's apartment the following day, he discovered the biggest, meanest looking dog he has ever seen. But, just as she had said, the dog just lay there on the carpet watching the repairman go about his work.

The parrot, however, drove him nuts the whole time with his incessant yelling, cursing and name calling.

Finally the repairman couldn't contain himself any longer and yelled,

'Shut up, you stupid, ugly bird!'

To which the parrot replied, 'Get him Spike!'

OPTIGEN REPORT

THE PROPOSED PCC HEALTH SURVEY DATABASE:

A report by the Health Officer, Mary Jane Weir

Background:

Even before I became Health Officer, I felt that the club should initiate a health survey, because we had no idea what was the current overall health of Poodles in Canada, nor did we know whether our situation in Canada was the same or different from the situation of Poodles in the US and elsewhere.

In 2004, The Kennel Club (UK) did a major and extensive survey of all breeds. In 2006, results for Poodles were published, as well as the survey questions. Because Poodles in England, the USA and Canada tend to be from the same bloodlines, we had a starting point for our survey, and I wanted to make sure that whatever we did would be able to be compared to the Kennel Club survey. At the same time, the Finnish Poodle Club did a health survey, but it was available only in Finnish and it was not co-ordinated with the English one.

As Health Officer for the Club, I was also receiving inquiries from researchers, such as: "What is the extent of Legg-Calves-Perthes in Canadian Poodles?", which I could not answer. In 2007, the Club had an opportunity to be part of a Univ. of Toronto and OVC (Guelph) research into epilepsy, but I could not locate enough affected dogs to participate. This failure was another reason to do the survey.

At the same time, I was searching to find a qualified geneticist who would conduct the survey, but found little interest from Guelph, Cornell or PEI. I contacted Dr. Jerrold Bell at Tufts who had done genetic research in my other breed, but he was too involved with other breeds to help. After searching for more than a year, I felt very fortunate to find a geneticist who was interested in doing the work.

THE DESIGN OF THE SURVEY

One of the difficulties with one-time surveys such as the English one is that it almost immediately needs to be updated to be of use to genetic researchers. So my first requirement was that the survey be ongoing. The geneticist suggested an online database. At the same time, the Poodle Health Registry was becoming very valuable, especially to Standard breeders, and their information was in the process of being added to a pedigree database. I did not want to take attention away from that effort, but I knew that many breeders were unwilling to make their information public. Unfortunately, researchers were being presented with incomplete information. As a result, I decided that the PCC Health survey database would be confidential, available to the club only in the form of statistical reports, but the database would be available to qualified genetic and medical researchers. As Health Officer, I will NOT have access to individual records; only the geneticist and qualified researchers will. Individual owners can update their own records from birth to death.

(In working with Dr. Lark of the Georgie project at Utah, I came to realize that much of the expense of genetic research was the time needed to construct a pedigree database for a breed with the health information included. It took Dr. Lark and his associates two years to collect pedigrees and add health information to them in the original breed studied - the Portuguese Water Dog. Using the Poodle Health Registry pedigree database and adding confidential health information supplied from two private databases, he reached the same level of information for the Poodle in two weeks!) If we could supply genetic researchers with the pedigree database AND the confidential health database, they would have a major reason to do their research on Poodles - and we breeders would be much more likely to have additional DNA tests as a result.

I also wanted to make sure that individual breeders would have access to the health information on the litters they bred. Too often, either because people move or do not realize the importance of reporting back to the breeder, vital information which could have a major impact on a breeding programme is not reported.

Finally, I saw no reason why this online database should not be available to other national Poodle clubs, so that they could do their own surveys; it would cost them only the time to translate if necessary and to pay for the statistical reports for their own geographic location. The result could potentially be a worldwide picture of the health of the Poodle. Our costs (covered by the Royal Canin grant) are for the initial setup of the database, and even there, we are sharing in work initially done and paid for by another breed for their international health database. The Poodle Club of Canada will own the database; we will have control of which researchers use it, and we can transfer it to another geneticist (although I hope we will not find that action necessary).

So the Poodle Club of Canada Health survey will be:

- an online database (those not online can send in paper forms and pay the geneticist to enter them (\$2.00/dog))
- the information will be confidential, available only to qualified genetics and medical researchers. Breeders and owners will be able to indicate if they are willing to participate in genetic research, which should help locate affected dogs for researchers.
- breeders will be able to access the health information of any litter they have bred.

The Poodle Club of Canada will pay the geneticist maintaining the database for statistical reports, for example, the incidence and increase in reports of Addison's in Poodles, or whether LCP has increased or decreased over a specific time span.

Like the pedigree database PoodlePedigree.com, breeders around the world can enter their health information; it will still be confidential, but other national Poodle clubs can do their own health surveys by requesting statistical reports from the geneticist.

THE BETA DATABASE

The beta database was made available to me and a number of other club members or researchers in March. In my opinion, it needs to be made easier to use, so that pet owners who are not used to technical terms will not be overwhelmed. We are also working on a fast entry process for litters.

CLUB RESPONSIBILITIES

Once the database is online, it will be up to the members both to use and to publicize it. If it is to reflect accurately the health of Poodles, it needs to be used by more than the club members. We will need to enlist the help of veterinarians, groomers and non-member breeders to obtain an overall picture of the health of Poodles. Our efforts could make the Poodle Club of Canada a major player in the world-wide effort to protect the health of our breed.

Editor note:

Thank you Mary Jane for the hard work you have personally put into this important Database! It has taken years to get to this point with many setbacks and some frustration. This Database will be proof that one member's personal dreams and goals for the breed she loves can grow and become infectious to other likeminded people, making lasting changes now and far into the future.

I urge all members to follow to this work in progress until the Database is up and running. Each and every member of The Poodle Club of Canada will need to get involved to ensure that we obtain an overall picture of the health of Poodles. We can do this in our own town, city, and province by enlisting the help of veterinarians, groomers, non-member breeders and all Poodle pet owners to submit information to this Database.

As Mary Jane said, "Our efforts could make the Poodle Club of Canada a major player in the world-wide effort to protect the health of our breed."

CANADIAN KENNEL CLUB UPDATES FROM MY AREA EASTERN ONTARIO DIRECTOR JOHN HODGKINSON

The following excerpts are taken from newsletter sent to CKC members in my area by our Director, dated April 2008. The topics I have included are of interest to most club members. It is important to keep up with issues and decisions the CKC is making. Find out who your Area Director is and contact them for more information, or to discuss important issues that affect you.

I thank my CKC director John Hodgkinson for the regular newsletter updates.

Debra Drake

PS. See FCI new updates posted 04/08/08 from CKC.

CKC OFFICE RELOCATION

Move: Key Dates

With the move to 200 Ronson less than three weeks away, here is the planned schedule, which will see the office closed for two working days, Thursday 10, and Friday 11, of April:

- *April 9th - last day for outbound mail delivery (including couriers)*
- *April 9th noon - order desk shuts down; no orders will be processed after that time*
- *April 9th 5pm - CKC server shuts down (online transactions and email will be down, but access to Website still possible)*
- *April 10-11th - office move*
- *April 14th - CKC & Apex fully operational*

NON REGISTERED DOGS AND THE CKC

The question of how much contact there should be between the owners of registered breeds and non-CKC dogs continues to be a concern to many members. There is no specific proposal that has been developed by the Board.

I do not think anyone on the Board has a preconceived idea that opening some CKC events to non pure bred dogs is inevitable, but the question has been brought to the table several times since I joined the Board in 2004. Never with a firm proposal, but with the question: will it help the CKC and pure-bred dogs. "Is it better for the owners of pure bred dog to remain isolated or should we cooperate in the interest of maintaining the right to own a dog.?"

We were totally ignored by the Ontario Government when it decided to ban "Pit Bulls". The fact that other small, but important, groups like the Ontario Veterinary Association, the various Animal Welfare organizations, and municipal pound operators were equally ignored when we warned government that Breed bans do not work, does not give much satisfaction. We tried and failed to convince the government that they were going in a bad direction. It is costing dog owners hundreds of thousands of dollars to fight this legislation, a fight that continues to this day, as the government has endless resources to fight a handful of dedicated owners of the banned breeds. I do not know whether the government would have listened to us if the CKC could have legitimately claimed to speak for all dogs, but pure-bred dogs make up only about a fifth of the total canine population, so 80% of dogs are owned by people with cross-breeds. Our CKC

membership is only a fraction of the pure-bred dog owners, as most pet owners have not joined the Club.

Another issue the members have to consider is that many of our members compete against non-purebred dogs in competitions run by other organizations. Agility is a good example of this, where non pure bred and pure bred dogs meet.

This is a complex issue, and that is why the Board is not rushing to put a proposal together. What is certain is that no change will be introduced without a decision of the membership

The Board is still working out how to get a full and fair debate on this issue, so please be patient and contact me with your views on this subject if you wish to express them.

RALLY SANCTION MATCHES

On Thursday, January 17, 2008, the Poodle Club of Canada hosted two Rally Sanction Matches at Companion Dog Training in Cambridge Ontario. Our judge was CKC Rally Judge and PCC member, Roslyn Beaman. The CKC requires two Sanction matches before a Club can hold regular Rally trials.

Vivienne Swarbreck was the Match Superintendent and I took the position of Match Secretary...both very lofty and important positions considering that neither one of us had even seen a CKC Rally trial before. However, we were not daunted by such trifling details and so we boldly pushed ahead with our plans to hold the two matches, one after the other, on the same day.

Our decision to hold the matches during the daytime on a weekday was a means of keeping the number of competitors at a manageable level. Of course, that meant that we also limited the number of club members that could volunteer to help. So the end result was that Vivienne and I were the only 'worker bees' for the day.

Frankly, I was hoping for no more than 10 entries. There is no minimum number of competitors required for the sanction matches and 10 entries would have been ideal for the two of us to deal with but we felt confident that we could probably handle 20 entries.

The day of the matches arrived and Vivienne and I were on site early getting everything organized. We had decided not to give out ribbons, so we had small treat packages and novelty dog signs for the first four placements in each class. Then, the competitors

started to arrive...they arrived and they arrived and they arrived.....it felt like there were literally hordes of dogs and people pouring in through the doors of the training hall. Vivienne was kept very busy taking entries and organizing people into the various classes. Mainly, I just ran around in a panic.....doing little bits of this and that....but not accomplishing much except to get in everyone's way. When the dust settled and the first match began, we had a total of 54 entries. A very far cry from our hoped for target of 10 to 20 people.

Our Judge laid out lovely flowing courses at each level with enough twists to make them fun and challenging. We received lots of positive feedback from the competitors about Roslyn's courses and her excellent judging. Vivienne and I devoted ourselves to being the world's busiest ring stewards and many of the competitors took turns helping us out.

We made a lot of mistakes, corrected them and then made a whole new set of mistakes, but we learned a great deal about what it takes to hold Rally trials. To be honest, it felt like a baptism by fire, but at the end of a very long day, Vivienne and I both agreed that we learned far more from the large entry than we would have if our wishes had come true and we only had to cope with small numbers.

The Poodle Club of Canada is hosting it's first ever Rally Trials in conjunction with Swansea Obedience Club on May 31 and June 1, 2008 at Pinepoint Arena in Toronto. Swansea will host regular obedience in 2 rings and the Poodle Club will have a third ring devoted to Rally.

We need club members to come out and help us make these trials a success. So, if anyone wants to see what Rally Obedience is all about, the best way to do it is as a ring steward. Vivienne and I will be there as ring stewards and we are pretty sure that we will be able to find a lot of creative ways to make mistakes and then hopefully more creative ways to fix them.

Roslyn Beaman is the show secretary for our Rally trials and has promised a half-day training for ring stewards. If you can give a day to work at the trials please contact Roslyn at Rdb_quercus@cogeco.ca

Introduction To Retrieving & Fieldwork Seminar

April 26, 2008

Hosted By: [Jump Up! Dog Works](#)

Location: Valencia Kennels, Cambridge

Cost: \$75 with dog / \$60 without dog

Contact: [Roslyn Beaman](#) (rdb_quercus@cogeco.ca) or 905-901-0181

Information: Interested in doing some retrieving work with your dog but not sure where to start? Join John Hamilton (Valencia Kennels) on this fun and interesting one-day seminar as he takes you through the basics of teaching your dog to retrieve with motivation. Learn what you need to know to enter and succeed at CKC Working Certificate and Hunt Tests. All breeds are welcome!

Highlights include:

- Retrieving Basics
- Understanding the CKC Working Certificate and Hunt Test Programs
- Setting up a Retrieving Test and points to consider when running your dog

For more information, see the [Workshop Flyer & Registration Form](#), visit www.beapudel.org/jump_up_dog_works, or email Roslyn Beaman.

This event is also listed on www.Canuckdogs.com

Obedience April 4, 2008

Judge Jeff Lunder

High in Trial was won by Lee Kozicki with a 198.5 in Utility, an especially emotional win since the award was made in honor of her twin sister Lynn Taplin who passed away less than a year ago.

CH GMOTCH CLAYDON'S CRUNCH AND MUNCH, 021 KC649803, 28-Feb-2000. Breeder: Gloria Bradley, Ch Haverhill Heatherly Hunter x Ch Claydon's Winesome Enchantress, Canada, Lee Kozicki, POODLE (MINIATURE), male, 14-0

There were 3 Novice A, 2 Novice B dogs and all qualified.

Of the 7 Open B and the 5 Utility dogs over 50% qualified
All dogs had a blast.

Kathryn's comments:

It was a good show and major fun was had by all. I will send pictures as soon as the photographer will let me have them.

The toy box draw was great. We brought in close to \$500 towards the next event, which we hope will happen in 2009. What was especially great with the toy box was it was won by a Poodle Obedience competitor from Friday evening. She was thrilled when I called her last night and let her know about the prize we needed to deliver.

Many folks asked about membership during the event and are very pleased that more things are happening in the West.

Kathryn Albrecht
Director AB

Why join a National Club?

We tend to forget that most clubs are run by busy volunteers with lives, jobs and families. These busy people try to squeeze it all in, but every once in awhile even the best of them let some things slide. This is not always in the club's favor leaving some volunteers plagued with feelings of frustration, lack of communication or miscommunication, as they try to juggle it all.

Why indeed join a National Club?

Well if you are like many of us, this question has crossed your mind a time or two.

The year 2007 was MY year of the dog (a few years behind the real Chinese calendar). With less family ties I planned to do all things "dog", that, in the past, I had only dreamed about. Well you guessed it, dreams seldom go as planned.

With the friendship, encouragement and yes, the personal help of many PCC members, I have gone from discouraged to enthused and energized about all things Poodle. I have been lead by the example of so many in this club to try new and wonderful events in which poodles can participate. "So many things to try, so little time!"

Thanks to all you PCC obedience people with all those letters after your dog's names.

I stand in awe of you and celebrate the knowledge of just how much work and commitment goes into each and every title.

PCC club members recommended and helped me find the right obedience coach in my area. In February we will have been working one year on and off with three different dogs in Novice Obedience. What I have learned is you all make it look easy and poodles learn much easier and faster than some middle aged women do!!

From chit chat with club members at meetings or other club functions I had learned that The Canine Good Neighbor Test is a great program. It's a good first step for a beginner in to the obedience world and it can be obtained without years of training.

Several kennel clubs offered this at their conformation and obedience shows in 2007, so we tried it. I held my breath and half closed an eye a time or two, hoping... would they.....? My poodles did just what I asked every time!! Who were these dogs, pretending all along to be my well trained poodles?!!! (From many of your tales from the obedience ring, that is not always the case with poodles)

I have been personally involved in the finishing of two of my co-owned Standard Poodles with the encouragement of my co-breeder, mentor and the one on one help of three special club members. I was able to handle one of my own dogs to her Championship and then continue to learn and work the show circuit as the assistant to breeder, owner and poodle handler Alysia Reichertz. I learned I love it. Beats house work! It has also enabled me to meet many other club members, who are poodle owner – handlers out on the show circuit.

I went to the club sponsored Herding Instinct Test because many of the members participating in this event are my role models for achievement and sportsmanship. With two dogs in full show coat and bright plastic wraps they welcomed us and humorously promised that no show coat will be harmed in the herding of sheep. Both dogs showed they had the herding instinct with great drive, although I was always left in the dust. What an evening of fun and fellowship! All were watching each dog and owner try it, laughter and encouragement abounded! If you ever have the opportunity to try the test with our club members I promise you can't help but have a fun time, even if your poodle is not a herder.

So you see, many doggie dreams and goals are possible “with a little help from your friend” in the Poodle Club of Canada

Keep on encouraging each other and success is sure to follow!

VERSATILITY AWARDS PRESENTED RECENTLY

WORKING POODLE

JO Whirlwinds Island Rook CDX WC HT RNMCL (CH Tudorose Roman Emperor CDX WC AGN JH ex CH Napoli Oneacmepoodlekit CDX) Photo #2

“Rook” is a Standard Poodle owned by Cheryl Ingwersen and bred by Patricia Rose of Prince Edward Island. Rook is a high energy, fun-loving Poodle and comes from strong working lines. So far, she has tried her paw at Obedience, Field, Herding and Rally-O. Rook has not met a dog sport that she doesn’t love. She lives in Tottenham, Ontario where she rules the roost with an iron paw over her father Joley and Piper (Golden Retriever) and two cats. Her hobbies are performance events, daily walks, camping, hiking and harassing the cats. Rook and Cheryl are working towards more titles and are enjoying each other’s company immensely.

CH Palman’s Heart of RockN Roll HIC RNMCL

(Am CH Manorhill’s Rock On ex CH Saruko Palman Alexi) Photo #3

“Bowie” is a Miniature Poodle owned by Roslyn Beaman and Betty Pateman and bred by Betty Pateman. Bowie is a cheerful and exuberant companion to Roslyn and her two other minis, Bowie’s maternal grandfather Owen and cousin Bronte. He is a constant hive of activity at home with his antics which include stealing socks, underwear, paper, and catching the mail as it comes through the slot in the door. He is extremely keen at everything he does and is currently playing at Obedience, Rally-O and Flyball. His show career was a bright star for both Roslyn and Betty as he finished his Championship days before his nine-month birthday with multiple wins including taking Best of Winners at the 2006 PCC Specialty and also taking Best of Opposite Sex at the Miniature Poodle Club of Ontario Specialty that same year.

About the Versatility Awards

The Poodle Club of Canada is proud to have this program in place to recognize the hard-work and dedication that members put into their Poodles. The program is open to all three varieties and has three levels: All-Round Poodle, Working Poodle and Versatile Poodle. Details and membership applications and instructions are on the club website (www.poodleclubcanada.com) or you may contact the Versatility Chair directly at rdb_quercus@cogeco.ca for more information.

THE VERSATILE POODLE NEW TITLE HOLDERS

CONFORMATION CHAMPION

Ch Allure Ormar No Regrets, Standard poodle dog. Photo #4
(SBIS Am. Ch. Lilitann's Book'em Dan'el X Am. Ch. Stargazer La Femme Allure)
Owner: Ora Marcus, Handled by (in Cda.) **Jennifer Carr-Peddle.** (in U.S). **Kathi Johnson**

Ch. Allure Ormar No Regrets , (AKA "Cole") finished as a junior puppy with Group 1st, multiple grp. placements and BPIS wins. At 10 mos. he won Best Puppy in Variety at PCC National Specialty under breeder/judge P. Wolfish, and went on to win his class at the PCA Nationals, under breeder/judge Ed Bivin. First time out as a Special, at 14 mos. he won BOB over multi BIS Special and group placement. He is out now being shown in the U.S. for his title. First time out, at 15 mos. he won BOB over top ranked U.S. Special, back to back 4 point majors and a Group 1st. At the Tampa Bay Poodle Club Specialty he won Winner's Dog under breeder judge Bill Cunningham. His next time out resulted in WD and BOW for another 4 pt. major. Cole was shown a total of 6 days in the U.S. needing only 2 singles to finish. Thanks to both Jennifer Carr and Kathi Johnson for the beautiful job they are doing with this stunning boy on both sides of the border and a special thank you to Cole's fans for their wonderful comments.

COMPANION DOG TITLE

OBEDIENCE TITLES

Ch Palman's Heart of Rock N Roll CD HIC RNMCL, Photo # 10
"Bowie", earned his CKC CD in four straight trials with placements in two of his classes. Bowie is just two years old, and is a very active miniature who loves people and other dogs yet somehow manages to maintain his composure and do all of his exercises not only with flair, but with precision. Bowie is handled by Roslyn Beaman, and is co-owned by Roslyn and Betty Pateman.

RALLY OBEDIENCE TITLES

Caro Rally

Ch Brielle's Velveteen Rabbit ATChC, RACL, AGI, NAC, OJC, NGC, CGN, with her Versatility Poodle Award. Miniature Poodle
Owner/Trainer: Debby DaCosta
Gemma received a score in of 199 Highest Scoring Dog in Trial in Excellent B under Judge Linda Barton.

Ch Vanir's Palman's Beau Jest CDX RE AGNJ, "Owen" has earned 9 qualifying scores in CKC Rally since February 2008, completing both his Rally Advanced and Rally Excellent titles and earning placements in his classes. Owen is a five-year old mini bred by Ted and Louise Falhgren and owned and handled by Roslyn Beaman. Owen tends to do all his events with style, adding his own detail to the exercises and generally having a great time in the ring. Watch for Owen in more Rally, Flyball and Field events this year.

TRACKING & HERDING INSTINCT TESTED (s) sheep

POODLE CLUB OF CANADA, HERDING INSTINCT TEST

PCC Herding Instinct Test

This was printed originally in the VIP Newsletter, Volume 15, Number 4 (August 2007)

By Roslyn Beaman

The Poodle Club of Canada held a Herding Instinct Test on August 15, 2007 at "Have Ewe Herd", a herding/training facility just southwest of Barrie, Ontario. Tester was Sue Jewell, who owns the property. Sue is an all-breed trainer and tester. There were a total of eight dogs tested, and all passed with flying colors. There were six Standard Poodles, including one in full show coat, a Miniature Poodle and a Norwegian Buhund. All dogs showed aptitude and working ability. It was exciting to watch the dogs blossom as they began to figure out what to do in the ring with the three sheep.

Some dogs just kicked right in as soon as they walked in, others needed to check out the ring first before their instincts took over. Overall, it was a fun evening for everyone. PCC is working on holding several working events for its members in the next year, including Rally-O and tracking.

POODLE CLUB OF CANADA, HERDING INSTINCT TEST

From Email 08/16/07

Hi everyone,

Thank you so much for coming out to the Poodle Club of Canada's Herding Instinct Test.....your support and enthusiasm for this event means a great deal to me!!

I think that we had just the right number of dogs....otherwise; we would have been testing them by flashlight. :-))

Vivienne and I will try to get some pictures out to everyone....I'm hoping to put the group picture, plus a write-up in the Poodle Club of Canada newsletter.

This morning, I mailed a note of thanks to Sue Jewell on behalf of the Poodle Club. The Club will see a clear profit of \$120.00 from the herding tests.

I also propose that the Norwegian Buhund, Acey be declared an 'honorary Poodle' for coming out and being part of our testing day.

Thank you, Vivienne for being such a thoughtful person and bringing the cold drinks and the cowboy cookies.

So, what fun performance event would you guys like us to do next?????

Cheryl Ingwersen
