Subject: heads up brucellosis

Date: Sunday, July 25, 2010 1:55 PM

Canine brucellosis has been found in 9 kennels in 5 different counties in Michigan (ref, state dept of Ag, Dr. A. Stinson), Breeds include Poodles. Please be aware that pre-testing before breeding is the *only* preventative measure, and that infection involves sterility, abortion and life-long health problems.

PCC Health Survey

The PCC-sponsored Health Survey went online in the fall of 2008. It is open to all purebred Poodles worldwide. Its main purpose is to collect and provide statistical reporting on the overall health and prevalence of specific diseases of the breed. In order to obtain the greatest input, it is confidential, and no member of the Poodle Club of Canada has access to any records other than the records they enter of their own dogs. Currently, its questions are asked in both English and French, but further translations into other languages are expected. The Survey collects information "from litter box to the Rainbow Bridge", and covers nutrition, housing, reproduction as well as an extensive listing of diseases. It is as important to collect the data on healthy dogs as to collect information on health problems, and the survey is aimed particularly at the pet owner as well as the breeder. Individual dog's records can be printed off and kept as a record of shots, nutrition etc., and can be updated for the lifetime of the dog. One other purpose designed into the Survey is the ability to connect researchers with dogs and their owners who have volunteered to assist in disease studies.

The Health Survey is:

- open to any purebred Poodle worldwide
- confidential
- online, entered by owner or breeder
- provides statistical reports to National Poodle clubs (or their equivalent)
- maintained by a geneticist
- ongoing, collecting information for the life of the dog
- collects information pertaining to both health and disease
- of value to researchers for locating dogs for their studies

Both of these databases need support to be valuable.

The Health Survey also needs support in order to give our breed clubs the information they need to supervise the health of the breed - checking to see if efforts to control disease are actually working and identifying disease conditions on the rise.

Thanks to Royal Canin for providing the money to set up the Poodle Health Survey.

Poodle Club of Canada

NATIONAL SPECIALTY 2010

The 2010 National Specialty was held on July 15th in Calgary Alberta. It was held on the Thursday before the 3 day all breed show held by the Evelyn Kenny Kennel and Obedience Club. I would have to say this event would not have gone off without the help of the members of both this all breed club and the help I received from the Poodle Club of Alberta.

This event was a joint venture of both clubs and I think, a first in Canada, that this has happened. Please do not quote me on that though since I have only been in Poodles for a very short time compared to many and have not ever seen a complete history of events of the Poodle Club of Canada.

We had an amazing entry. 70 dogs total entered in conformation and 17 in Obedience and 22 in Rally. Though I was a bit disappointed with the Performance entry I still was very happy overall. The Poodle Club of Alberta entry was very similar in numbers with a couple of puppies only entered in PCC. Total entry was 109 Poodles - a nice showing of our chosen breed.

The morning began with Sweeps at 8:30 AM and was judged by Anders Rosell. Winners of Breeder sweeps was AM CAN CH Wintergardens Creme De La Creme (Standard) owned and bred by Mary Jo Winters. This was followed by Puppy sweeps which was won by CH Pomroth Rockstar (Toy) owned by Helen Hamilton and handled by Kim Wendling. Last but definitely not the least was Veteran sweeps which was won by a very active 13 yr. old AM CAN CH OTCH Innovation Devil In Disguise owned and bred by Shaunna Bernardin and Beth Bejuea. This little girl had an amazing weekend playing in Rally and winning her class many times as well as participating in the Veterans Obedience of the Specialty.

OBEDIENCE AND RALLY

Obedience and Rally entries were at 39 total.

Our judge was Allan Immerman from Washington, he did a lovely job judging the 2 events and I believe he enjoyed himself immensely. Even when I got him crying in the veterans ring. The morning started with Obedience and High in Trial went to Lee Kozicki with her Ezee boy CH Greg-Mars Ez Up with a score of 194.5 in Open B.

Rally was in the afternoon with 22 dogs entered. There is no high in trial in Rally but not a single entry NQ, which made for a very fun and enjoyable day.

I would have to say the most enjoyment for me was the veterans class. There were 6 entries and they all came to play. This is the one picture I am going to include because I feel it is the heart of all Specialties. Enjoying our dogs for what they give us without question.

The oldest dog entered in veterans was my own Zoe CH MOTCH Vetset Outrageous Fortune AM CD SHDCH. CH OTCH Innovations Devil in Disguise was just 1 month younger. To say the veterans was not an emotional event for me would be a total lie.

Zoe is starting to really show her 13 years and though she still plays with the others and counter surfs with the best of them I know time is getting short for her. When I was warming her up for the veterans class the young, energetic and mischievous girl came back to the forefront. She was slamming my legs with her paws and pocket scrounging with everyone. Best moment was when the shopper enjoyed herself to Heather Lawson's treats without so much as a break in her heeling.

I am worried now. Is this girl going to have so much fun we will be the entertainment of the day. Well we get onto the mats and the first thing that happens is Allan says "are you ready" What does Zoe do...plop down into a perfect sit at my side and what does Kathy do..... start bawling. I think it took me close to 10 minutes to pull myself together but then we did a very nice round and came out with a score of 194. Lee Kozicki won veterans with a 199 with her boy CMOTCH CH Claydon's Crunch And Munch.

This is the one picture I am including in this report. All remaining pictures will be posted on the website. This picture was taken by Al Kozicki

In this picture from right to left: Handler for Innovations Devil In Disguise -Cory Hynds, Marly Harvey who showed her toy Keja's Token Moments, Evelyn Sera with Rocky - CH Seransil Rocky Road to Riches CDX AGN, Mogens Albrecht with Tudi CH Kandansk Don't Pass me BY CGN CD, myself with Zoe CH MOTCH Vetset Outrageous Fortune SHDCH and Lee Kozicki with Crunch GMOTCH CH Cladyon's Crunch and Munch.

We are all displaying the lovely ribbons presented to all veterans which included their full registered names and titles. Laying on the dog bed is our judge Allan Immerman.

For complete results and entry information please go to the website under Specialties. a complete marked catalogue is posted. I will also be posting this report and the Performance report on the website compete with pictures - I did not want to include pictures so as to not make this newsletter to huge to download
